

Building Bridges

Alief STEM Conference 2018

Alief STEM for ALL

A unique coed conference experience that will run simultaneously to provide youth experiences, exposures, and awareness to career professionals, organizations, companies and educational institutions from the fields of Science, Engineering, Technology, and Math.

Building Bridges - Alief STEM Conference 2018

When

Saturday, April 14th, 9am-2pm

Where

2811 Hayes Road Houston, TX

G.I.R.L.S. (Girls Influencing Real Lives in STEM) Conference hosted by Olle STEM Academy

G.I.R.L.S. has been designed to expose students to a number of advanced degrees and careers in STEM fields and broaden the participation of women and minorities in those fields. In addition, G.I.R.L.S. will encourage collaboration, communication, engineering challenges and interaction with community stakeholders in STEM.

Boys STEM Conference hosted by Houston Community College's Minority Male Initiative (MMI)

The mission of the Minority Male Initiative Program is to increase the completion rate of minority males enrolled in primary, secondary and post-secondary education by providing a

sound educational foundation supported by life skills training and development. HCC's Men of Honor student organization will be on-hand to engage middle and high school students in STEM career exploration, college exploration, and college readiness preparation.
