Provo, UT 84604

I am writing to apply for the Summer Software Engineering Internship advertised by Greenhouse. As requested, I have attached a complete job application and my resume.

The opportunity presented in this internship has interested me very much, as I am currently working to get into a Computer Science program at the University of Utah, I believe that not only will I be able to learn a lot, I think I can contribute a great amount to your team. Some of the key strengths I possess for this position include:

- I have experience in two other internship opportunities including the University of Utah.
- I always try to learn as much as I can
- I am a very good communicator with both customers and co-workers alike

While pursuing a degree in Computer Science, I have a great understanding of the depth and challenge that goes into completing a project.

Please refer to my resume for any additional information on my experience.

You can reach me anytime via email at [redacted]@landmarkpd.com or by my cell phone, [redacted].

Thank you for your time and consideration. I look forward to hearing back from you about this opportunity.

Sincerely,

Cole [redacted]
