

Take a look at your perception
Be perceptive of your voice inflections
When thinking about the truth
Think about the questions
That you ask
Do they resonate within your inner soul?
Or do you hesitate to ask
Afraid of the answer
When it's told.

What percentage of negativity do your thoughts hold?
Do you put gas to the flame
Where life is depicted with more ups and downs than a street riddled with
pot-holes?
Or do you put gas to the flame that lights
Colossal thoughts with awesome sauce
Dribbled over talk that's talked
And walked, 'cause it's got sole - on its feet
It's got soul on the inside - not discreet
It doesn't look at the world through a lens that's awful
It looks at the world through an optimistic optical.

Now, I know that when life has got you down
That destination anxiety
Gets heavy,
Where that greener grass gets to pangin' bad - mightily
If you get hung up on whatever you're chasin' that light'll be
The end, of you, remember Gatsby?
He pursued that green light til the light deceased-
Him
The lesson:

Don't don't die trying to get what you absolutely want
Because it might end violently.
So when it comes down to fight or flee
Ride for you, don't ride for he, or ride for she
Or if you ride, ride, til the ride's complete
Don't hop out the side, when it starts to seem dire-G
Ride til the wheels fall off, and end up right by your feet.

Be thankful
That you woke up breathing
Be thankful
That you woke up seeing
Be thankful
That after you woke up, you ended up eating.

If you're alive, act like it
There's no time to back people that will only stick that knife in
And there's always time to pursue a whole life
When there's only been a half life lived.

Do you
Pursue truth
Through and through
Put 2 and 2 together
This is simple,
Don't make life complex like a rubix cube.
If you have to switch your plan on
How you spend your minutes, do it!

'Cause in the end, who's the only one that ends up paying for the usage...?

You.
